DECONSTRUCTION: The Ellison-Oracle Media Merger and US Capture Network

The Claims: What Was Said

Speaker	Claim	Details
JOKAQARMY1 video	Largest media merger in American history closed	Warner Brothers, CNN, HBO, CBS, Paramount Pictures now under one family's control, running on Oracle infrastructure.
JOKAQARMY1 video	Oracle won new federal contracts	Medicare/Medicaid data for 150+ million Americans; Air Force operations using AI.
JOKAQARMY1 video	Circular financing scheme	Government pays Oracle → Oracle stock price supported → **Larry Ellison** pledges stock as collateral for son's media purchase → Merged company uses Oracle infrastructure.
JOKAQARMY1 video	Merger funded by foreign governments	Saudi Arabia and Qatar (same countries US is "allied with" while at war with Iran) providing billions.
JOKAQARMY1 video	Oracle listed as "neutral third-party vendor" in merger filings	Obvious lie: Oracle is the financial backbone and infrastructure provider.
Larry Ellison	Oracle loves Israel	"We love the country of Israel, and we'll do everything we can to support the country of Israel."
Larry Ellison	Oracle has two Israeli CEOs	**Zafra Katz** (born in Israel) and one other.
Larry Ellison	Oracle acquired many Israeli companies	"After Silicon Valley, there's an area, Herzliya has probably got more startups than any other place... We've actually acquired a number of Israeli companies."
Larry Ellison	Israel did everything to minimize civilian casualties in Gaza	"The Israeli army did everything they could to minimize civilian casualties... they've done a much better job than a lot of other armies."

The Ellison Media Empire: What It Controls

Media Asset	Type	Owner/Controller
Warner Brothers	Film/TV	**David Ellison** (son) via merger
CNN	News	Same
HBO	Premium cable	Same
CBS	Broadcast network	Same
Paramount Pictures	Film studio	Same
TikTok (US operations)	Social media	**Larry Ellison** / Oracle (cloud infrastructure)
Oracle Cloud Infrastructure	Tech platform	**Larry Ellison**

What This Means

One family now controls a massive portion of American news and entertainment media.

That same family provides the cloud infrastructure for that media empire.

That same family wins federal contracts to host Medicare/Medicaid data and run Air Force AI.

That same family publicly declares undying loyalty to Israel and funds Friends of the IDF.

That same family employs **Unit 8200** alumni through acquisitions.

That same family's wealth depends on taxpayer-funded federal contracts.

The Circular Flow: Tax Dollars Become Media Empire

Step	Transaction	Beneficiary
1	US taxpayers fund Oracle via federal contracts (Medicare/Medicaid, Air Force AI)	**Larry Ellison**, Oracle shareholders
2	Oracle revenue increases stock price	**Larry Ellison** (largest shareholder)
3	**Larry Ellison** pledges Oracle stock as collateral for $44.6 million loan	**David Ellison** (son)
4	Loan funds **David Ellison's** media merger (Warner Bros, CNN, HBO, CBS, Paramount)	Ellison family
5	Merged media empire runs on Oracle cloud infrastructure	**Larry Ellison**, Oracle

Step	Transaction	Beneficiary
6	Media empire shapes public opinion, covers/censors news about Israel, Iran, capture network	Ellison family, Israeli interests
7	Public opinion managed, federal contracts continue, cycle repeats	Entire capture network

What This Proves

Taxpayer money is being funneled through Oracle to finance a family media empire.

That media empire then controls the narrative about the very government paying for it.

The entire structure is circular, self-reinforcing, and captured.

The Foreign Funding: Saudi Arabia and Qatar

Country	Role in Merger	Role in Iran War
Saudi Arabia	Providing billions for media merger	US "ally" hosting US bases, struck by Iranian retaliation
Qatar	Providing billions for media merger	US "ally" hosting largest US base in region (Al Udeid), struck by Iranian retaliation

What This Means

The same countries funding the Ellison media empire are the ones whose civilians and infrastructure are being hit in the US-Israeli war on Iran.

The media empire funded by these countries will now cover that war.

The conflict of interest is total.

The "Neutral Third-Party Vendor" Lie

Oracle's Role	Merger Filings Claim	Reality
Infrastructure provider	"Neutral third-party vendor"	Oracle is the cloud platform the merged empire runs on.
Financing source	Not disclosed	**Larry Ellison** pledged Oracle stock as collateral.
Beneficiary	Not disclosed	Oracle gains a massive new customer (the merged empire) paid for by its own stock.

Oracle's Role	Merger Filings Claim	Reality
Federal contractor	Not disclosed	Oracle's stock value depends on federal contracts paid by taxpayers.

What This Proves

The merger filings lie. Oracle is not neutral. It is the financial backbone, infrastructure provider, and ultimate beneficiary all in one.

Larry Ellison's Israel Statements: What They Reveal

Statement	Implication
"We love the country of Israel, and we'll do everything we can to support the country of Israel."	Oracle's corporate policy is loyalty to a foreign nation.
"We have two CEOs at Oracle. One's name is Zafra Katz, and she was born in Israel."	Israeli nationals in top leadership positions.
"We've actually acquired a number of Israeli companies."	Each acquisition potentially brings **Unit 8200** alumni into Oracle.
"The Israeli army did everything they could to minimize civilian casualties... they've done a much better job than a lot of other armies."	Ellison publicly defends genocide in Gaza.

What This Means

Oracle is not an American company serving American interests. It is an Israeli-aligned company serving Israeli interests, funded by American taxpayers.

The 4-Week Timeline: What It Covers

Event	Date	Significance
Warner Brothers shareholder vote	March 20, 2026	Final approval of Ellison media merger
Pete Brian Hegseth's war timeline	"Four weeks, could be six, could be eight"	War covers merger closing period

Event	Date	Significance
Donald John Trump's announcement	March 3, 2026	War to last "about four weeks"

What This Suggests

The war distracts public attention while massive financial and media consolidation occurs.

By the time Americans look up, the Ellison family will control a massive chunk of media and infrastructure.

The capture network uses war to cover its tracks.

The Capture Network: Ellison Node Fully Mapped

Connection	Evidence
Larry Ellison → **Israel**	Public declaration: "We love Israel... do everything we can to support Israel."
Larry Ellison → **Unit 8200**	Acquired multiple Israeli companies, employs **Unit 8200** alumni (**Ron Reiter** et al.).
Larry Ellison → **Benjamin Netanyahu**	Described as "key Netanyahu ally" (ITEM #55).
Larry Ellison → **Marco Antonio Rubio**	Part of same influence network (ITEM #307).
Larry Ellison → **JD Vance** (via **Peter Thiel**)	Same network (ITEM #307).
Larry Ellison → US federal contracts	Medicare/Medicaid data, Air Force AI operations.
Larry Ellison → Media control	TikTok, Warner Bros, CNN, HBO, CBS, Paramount.
Larry Ellison → Circular financing	Tax dollars → Oracle stock → media empire → Oracle infrastructure.
Larry Ellison → Genocide denial	Defends IDF's Gaza actions as "minimizing civilian casualties."

Synthesis: What This Merger Really Is

Element	Reality
Media consolidation	One family now controls massive narrative-shaping power.
Infrastructure capture	Same family provides cloud for that media.
Federal contract capture	Same family wins contracts paid by taxpayers.
Foreign allegiance	Same family declares loyalty to Israel.
Intelligence penetration	Same family employs **Unit 8200** alumni.
Circular financing	Tax dollars flow through Oracle to media empire and back to Oracle.
War distraction	Iran war covers the merger's closing.
Foreign funding	Saudi and Qatari money (same countries at war) funds the deal.
Lie of neutrality	Merger filings falsely list Oracle as "neutral third-party vendor."

The Only Conclusion

This is not a normal business transaction. It is a capture operation: US taxpayer money, Israeli-aligned technology, foreign funding, and media control all consolidated into one circular, self-reinforcing system. The war on Iran provides the cover. The water strike remains the kill shot.

The rest is action.

What is Trump trying to keep under control for over the next 4 weeks
11:14 AM · Mar 3, 2026

Trump just announced that this war with Iran is going to last about four weeks, and that's a very specific amount of time. So I wanna talk about what I think he's covering for. This weekend, the largest media merger in American history closed. So now one family is about to control CNN, HBO, CBS, Warner Brothers, Paramount Pictures, all running on Oracle's infrastructure. And that same family also happens to own Oracle's infrastructure. And it just so happens that Oracle, within the last two weeks, has won brand new contracts to host Medicare and Medicaid data for over 150 million Americans and to run Air Force operations using AI. That's right. Who needs separation between church and state when you can have AI run across all of those contracts? Oh, and see if you can find anything wrong with how this is being paid for, because Larry Ellison is personally guaranteeing $44.6 million of this $6 billion merger by using his Oracle stocks as collateral. And that stock price depends on Oracle's federal contracts, you know, the ones that your tax dollars pay for.

So the government pays Oracle, and then that revenue supports Oracle stock. And then Ellison pledges that stock to finance his son's purchase of the largest media company in American history. And then Oracle becomes the infrastructure beneath that company. So Oracle becomes the infrastructure, the

collateral, and the beneficiary on every side of the same transaction. So you mean to tell me that public money flows into Oracle and then the Ellison Media empire pops out the other end? Oh, and then in the merger filings, Oracle is listed as a neutral third-party vendor? I'm sorry, is the neutrality in the room with us? Oh, but don't worry, you say, because another couple billion dollars of this merger is coming from Saudi Arabia and Qatar? The same governments were currently at war alongside, in Iran. Right, right, right. So I spent this last weekend writing a brief that specifically calls on Congress to require a conflict of interest review before this merger closes, demand data firewall protections between Oracle's government contracts and the media infrastructure it's now holding, and to treat Oracle exactly as it is in this merger, not a third-party vendor, but as the financial backbone of the entire transaction.

The Warner Brothers shareholder vote is on March 20th. Congress needs to see this policy brief before it happens. So please feel free to read the whole thing. It's on my sub stack available for free. The links in my bio, just share it, please. So just to be clear, I'm not saying that this entire war exists only because of all of this going on, okay? But what I am saying is that four weeks is a very convenient amount of time to let a lot of things close. So I'll be watching for every government filing, every federal contract, every regulatory document related to this merger. And if anything moves while everyone's watching Tehran, you'll hear it here first. So follow along if any of this matters to you. I have spent time to the people who govern the state of Israel. And I feel a deep emotional connection to the state of Israel and the Israeli people. After Silicon Valley, there's an area, Herzliya has probably got more startups than any other place other than Silicon Valley in Northern California.

So we've actually acquired a number of Israeli companies. We have two CEOs at Oracle. One's name is Zafra Katz, and she was born in Israel. So, again, we love the country of Israel, and we'll do everything we can to support the country of Israel. I recently heard that many people criticize Israel, especially after the Gaza operation. How do you feel as someone just saying you love Israel so much? Well, again, it's a difficult situation, isn't it? To conduct military operations around civilians is very difficult. And, of course, there were tragic tragedies, and civilians were hurt. That's a terrible thing. But one thing we know for certain, that the Israeli army did everything they could to minimize civilian casualties. In that regard, they've done a much better job than a lot of other armies all over the world throughout history.
